

The Internet For Business Growth

The Internet is part of the modern world, and the smartphone the device connecting everyone and everything. A web optimized business is essential. Can your customers, past, present and future connect to you? If not, why? If yes, so can your competitors and cyber-criminals. Make the most of the web, make it work for you, and keep secure.

A support technician can set-up kit and clear a jammed printer but sometimes high-level knowledge is required. Hire a computer specialist. If you need computer help chat to an expert to solve IT issues.

Web and Computer Help

Every modern business needs IT, and despite three generations of progress some suppliers still make systems painful to use and unreliable. Technology should make you smile not pull your hair out. Do you need help with web or computer problems?

Computer Support Services for Every Business and Everyone

From common computer problems, such as a slow computer, to complex solutions requiring bespoke software and IT to run business processes. IT is a business cost. Reducing computing costs makes good business sense. Cloud and web based services are cost effective for IT. There isn't a computer or software system than cannot be simplified.

IT Support Prices Start at £20

It costs nothing to talk through your IT issues. General IT help is £20 for the first hour and each hour after that. All kit and parts purchasing will be approved by you. IT support and web site maintenance contracts from £39 per annum. Fixed price bespoke websites, software, systems and projects depend upon your needs, e.g. a new website from £100.
